Local Branch G.W.V.A. Organized

At the request of a number of veterans of the district Mr. Hume, branch organizer for the G.W.V.A. arrived in Irma on Sunday night the 21st, for the purpose of forming a branch of the association. Previous notice of his coming had been given and as a result there was a large and representative attendance of the returned men of the district. After a short address by Mr. Hume, who acted as temporary chairman, a resolution was unanimously passed that the meeting resolve itself into a branch of the G.W.V.A. The election of officers was then proceeded with and the following were unanimously elected: President W. L. Mildon; 1st Vice-Pres. R. Hunter; 2nd Vice-Pres. W. Steele; Sec'y-Treas. N. J. Berridge; Executive Committee J. R. Love, W. Clark and C. Walker. There are about fifty veterans in the district all of whom, it is expected, will join and they anticipate a live and progressive branch in Irma.

Irma Defeats Viking Ball Team on Their Own Grounds

The Irma base ball team with about twenty supporters motored to Viking on Friday and showed Manager Slavik without the slightest doubt which town has the best team. The day was not what you might call a good ball day by any means but manager McDowell put on a team brim full of pep, using the heavy artillery on Jones, battling him out of the box in the first inning making three runs.

Anderson pitched his usual game sizing up his batter, let the in-field get the easy ones and fanned the heavy hitters.

Johnston, catcher, put the fear in the base runners with his perfect peg.

Henry on first showed he could play that sack as well as second.

Harper on second put extra vim in that position of the diamond.

Evers at short played a fast game.

Gulltner on third handled the ball like a spike, driving it home or to first as if to stay.

Jones at right, altho the mule trod on his foot, delivered the goods.

Peterson, centre, had not played a game for two years but showed he could come back and the co-operative way he and Stuart handled a long fly was the topic on the return trip.

Stuart, left, had not played this season, went over the top for the flies and made the first run.

They're sportsmen wherever you find them, boys.

They're jolly and strong and gay.

They're mainly wherever you meet them, girls.

We call them Our Boys in Grey.

They've chummed with the boys, all the country round,

Where the bars of strife were down;

But when they dressed for the diamond, boys,

They didn't forget their town.

They weren't playing for shakels paid

After the game was done—

They played for the honor of Irma, boys,

And they played to win—and won.

They've played with the pick of the town's around,

Where good sports were honest and true

But occasionally they run up against a sheep skate burg,

Where yellow is the preferable hue.

So here's to the winners of three-fourths the games,

Who have gained such great renown;

And we'll never forget our Boys in Grey,

Who didn't forget their town!

No Change in Soldier Settlement Act

That no authority has been given for an alteration in the provisions of the Soldiers' Settlement act governing the waiving of the ten per cent. initial payment on land purchased with money loaned by the board, was information learned as a result of the visit to Edmonton of Major W. J. Black, head of the Soldiers' Settlement board. Whether such a change was likely could not be ascertained, but present agitation in Edmonton and other cities it is thought, will result in alteration before very long.

As has been pointed out, only class A men, or those who have spent practically the whole of their lives on the farm, are entitled to a waiver, as the act stands at present.

The fact creates a great deal of inconvenience, and, in many cases, some hardship, and is resulting in a strong determination being shown by land departments of the Great War Veterans association of having present condition so revised as to include similar concessions to men of other classifications.

Regulations in connection with the Soldiers' Settlement board are receiving criticism, daily. A veteran who entered the Edmonton office Friday morning had purchased a quarter-section of land with money loaned by the board, and by reason of this fact was debarred the right of taking up a nearly quarter section of land as a soldier's grant. This he would only take up by offering his civilian homestead right, which he considered to be a direct interference with his civilian opportunity.

Why a man, after having purchased land with money loaned by the Soldiers' Settlement board, that he will ultimately have to repay, should by reason of that fact later be debarred additional civilian privileges is considered by land department heads of the Edmonton G.W.V.A. to be a very important question, and means are now being taken to thresh out the matter to a successful issue.

Arguments offered against the ten per cent. initial payment are that men cannot afford it at the present cost of acreage. Many good men who would make good farmers, but whose qualification is not A1, are therefore unable to go on the land, and are remaining in the cities, swelling the number of unemployed.

How It Looks From The Trail.

Is it a fact, that Wainwright constituency which we form a part, cannot get a municipal hospital, government rural phones or money appropriated for government highways and trunk roads spent on account of having a conservative soldier member to the Alberta legislature? Irma district have begged the government for phone lines, petitioned for money to build a highway from Jarrow thru to Wainwright, petitioned for municipal hospital which we pay for out of our own taxes, with what avail? Take a motor drive along C.P.R. or C.N.R. where the foreigners are in majority and liberal members prevail, you can step on her; yes, good roads, phones in all directions and a new hospital at nearly every little village.—Contrib

Good Roads In The West

The article appearing in this column last week dealing with the influence and effect of good all-weather roads upon school attendance, better schools and the development of rural high schools, concluded with a reference to what the Province of Quebec is doing in good roads building and the markedly beneficial effect it is having on agriculture, industry and education in that Province, and how enthusiastically the people there are in support of a continuance of a policy which is creating such an improvement in the life and prosperity of the Province.

What is being accomplished in Quebec is not only of direct benefit to that Province, but indirectly it benefits Canada as a whole, although it must be admitted, the effect will not be very noticeable in these Western Provinces except that, insofar as Quebec advances, the whole Dominion is advanced and benefited by it. It has been regarded as our most backward Province coming in line with the other Provinces. The good roads program of Quebec is a sign of an awakened Province, and those roads will prove a most influential factor in making the Province still more progressive.

The question is: Are the other Provinces of Canada, and more particularly these Western Provinces, going to emulate Quebec's example in respect to good roads construction? It can hardly be doubted but that they will, and the question then arises, how soon are they going to begin to create a system of hard-surfaced main highways? The further question presents itself: Is the present an opportune time for the inauguration of such a policy?

We submit that now is the accepted time, and we propose to give a few reasons for that belief. The Dominion Government has recently provided a vote of \$20,000,000 to be paid to the Provinces on a population basis, covering a period of five years, to be expended in highway construction. By the terms of the grant the Provinces are required to spend an even larger sum in order to become entitled to the Dominion grant. That is to say, for every \$100,000 supplied by the Dominion, the Provinces must put up \$150,000. As the Dominion agrees to furnish \$20,000,000 within the next five years, it means that the Provinces will have to furnish \$30,000,000, thus providing a grand total of \$50,000,000, or \$10,000,000 a year to be spent on highway construction in Canada. Surely, therefore, now is the time above all others to embark on a program of construction of permanent roads, and not merely makeshift dirt roads.

Of this \$20,000,000 of Dominion money, the three Prairie Provinces will receive the following amounts: Alberta, \$1,478,000; Manitoba, \$1,602,000; Saskatchewan, \$1,806,000, a total for the three Provinces of \$4,886,000—say, in round figures, \$5,000,000. The Provinces will be required to furnish an additional \$7,500,000, thus providing an annual sum of \$2,500,000 for the next five years. If this money is wisely expended on permanent roads, Western Canada at the end of the five-year period will have something to show in good roads, and we venture to predict that the advantages resulting from such highways will lead the people to insist that the good work be continued.

The next question that will present itself is: Can these Western Provinces finance their proportion of this program, and at the same time continue to spend the large sums necessary in these new Provinces on what are pioneer roads and which must be built to enable farmers in remote districts to get to market. Let us take Saskatchewan as an example, and what is true of it is proportionately true of Manitoba and Alberta.

In this present year of 1919 Saskatchewan will derive a revenue from automobile licenses of upwards of \$800,000. Saskatchewan's annual grant from the Dominion under the proposed new highways scheme will be \$361,200 a year, which will call for a further provincial expenditure of \$438,800. Saskatchewan can find this from its automobile license revenue and still have a quarter of a million dollars left over. And surely automobile license moneys should be spent on roads, and good hard-surfaced permanent roads at that.

Furthermore, if our Western Provincial Governments take over full responsibility for the building and maintenance of certain main roads in municipalities, and thus relieve the municipalities of all expenses in connection therewith, the municipalities benefited thereby could, in turn, well afford to contribute the small grants of a few hundred dollars they may now receive from the Province. For every dollar they thus relinquish they would receive several dollars back in the form of permanently constructed and maintained main roads.

The largest number of automobile owners in these Western Provinces are farmers. Hard-surfaced roads will extend the period of time in the year that motor cars can be used, and will reduce the wear and tear on the same, thus increasing their value to the farmer. Their greater value and utility will lead to a further increase in the number of cars used, and, consequently, provide a still larger license revenue from which a consistent and ever larger program of good roads construction can be carried on.

The moral of the situation would seem to be that every Western farmer should become a good booster, and should bring all possible legitimate pressure to bear upon the Provincial Government to embark upon a well-planned, progressive policy for the construction of permanent hard-surfaced main roads.

Favor Holland as Place of Residence.—Amorongen—Former Princess Cecilie of Germany, with her two sons, has left for Amersfoort, Holland, on her way back to Germany. She travelled on an ordinary train. The possibility of the entire former royal family of Germany making their home in Holland was discussed at conferences taken part in by Cecilie and the former emperor and empress at the Von Bentinck castle during her visit here, it is understood. No definite, however, was decided upon.

HOW MRS. ROYD AVOIDED AN OPERATION

Canton, Ohio.—"I suffered from a female trouble which caused me much suffering, and two doctors decided that I would have to go through an operation before I could get well."

"My mother, who had been helped by Lydia E. Pinkham's Vegetable Compound, advised me to try it before submitting to an operation. I relieved me from my troubles."

"I can do my house work without any difficulty. I advise any woman who is afflicted with female troubles to give Lydia E. Pinkham's Vegetable Compound a trial and it will do as much for them."—Mrs. MAURIE ROYD, 1421 5th St., N. E., Canton, Ohio.

Sometimes there are serious conditions where a hospital operation is the only alternative, but on the other hand so many women have been cured by this famous root and herb remedy, Lydia E. Pinkham's Vegetable Compound, after doctors have said that an operation was necessary every woman who wishes to avoid an operation should give it a fair trial before submitting to such a trying ordeal.

If complications exist, write to Lydia E. Pinkham Medicine Co., Lynn, Mass., for advice. The names of many years experience is at your service.

British League Will Not Perish

Melbourne, Australia.—Premier Hughes, in a speech, said Australia must have a government that had a clear and direct mandate from the people. Referring to the general political outlook, he declared that what ever became of the other league of nations, the league of the British Empire would never perish.

PAINFUL RHEUMATISM

May Be Driven Out of the System By Enriching the Blood

In the days of our fathers and grandfathers rheumatism was thought to be the unavoidable penalty of middle life and old age. Almost every elderly person had rheumatism, as well as many young people. Medical science did not understand the trouble—did not know that it was rooted in the blood. It was thought that rheumatism was the mere effect of exposure to cold and damp, and it was treated with liniments and hot applications, which sometimes gave temporary relief, but did not cure the trouble. In those days there were thousands of people who were crippled by killing the poison in the blood which causes it. There are many elderly people who have never felt a twinge of rheumatism, and many who have conquered it by simply keeping their blood rich and pure. The blood making, blood enriching qualities of Dr. Williams' Pink Pills is becoming every year more widely known, and it is the more general use of these pills that has robbed rheumatism of its terrors. At the first sign of poor blood, which is shown by loss of appetite, palpitations, dull skin and dim eyes, protect yourself against the further ravages of disease by taking Dr. Williams' Pink Pills. They have cured thousands of people—if you give them a fair trial they will not disappoint you.

You can get these pills through your dealer in medicine or by mail at 30 cents a box, or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

Bomb Thrown at Egypt's Premier.—London.—A bomb was thrown at Hussein Rashedi Pasha, Premier of Egypt, at Alexandria, according to an Alexandria dispatch just received here. The bomb was conceived in a basket of grapes, but did not injure the Premier. The assassin of Hussein Pasha was a theological student.

Wise mothers who know the virtues of Mother Graves' Worm Exterminator always have it at hand, because it proves its value.

Must Stand Trial

Wm. Hohenzollern Must Answer For Supreme Offense Against International Morality

Paris—Premier Lloyd George is determined to have it settled that the peace conference demand from Holland the handing over of former Emperor William, according to Le Journal. The newspaper asserts that the Premier will insist on having such action decided upon.

The peace treaty with Germany arraigns William Hohenzollern, the former German emperor, "for a supreme offense against international morality and the sanctity of treaties," and provides for a "special tribunal" to try him. The clause of the treaty dealing with this question, closely with this sentence, "the allied and associated powers will address a request to the government of The Netherlands for the surrender to them of the ex-emperor in order that he may be put on trial."

The Brave Pigeons Of The War

Old War-Worn Birds Have Been Pensioned Off By Government

Feathered "veterans" of H.M. Pigeon Services are being "demobilized" and it has been decided to present them to discharged soldiers. Practically all the pigeons used by the army, navy and air force during the war, numbering 80,000, were presented gratuitously by breeders, in return for which the latter were given free supplies of grain to assist in rearing fresh "recruits."

In a few cases old war-worn birds have been pensioned off by the Government, and are now living in peace and plenty. One of these is the pigeon which was shot through the eye while delivering a message. It recovered from the wound, and is now at Westgate, "on light duty."

"The number of lives saved by pigeons during the war will never be known," said an officer, "for, in addition to the many pilots and observers who have been rescued from wrecked machines, as a result of messages faithfully delivered, the birds have been used to establish communication with troops who were surrounded by the enemy by dropping the birds from airplanes in baskets attached to parachutes."

Britain's Wheat Purchase

Relieved Financial Strain on Australian Wheat Board

Sydney, New South Wales.—Britain's purchase of 1,000,000 bushels of Australian wheat at 55 6d a bushel f.o.b. has greatly relieved the financial strain on the Australian Wheat Board. Wheat growers are hoping that the British Government will exercise its option to purchase another 500,000 tons before the end of the year. This huge sale to the Imperial Government will not prejudice Australia's markets in South Africa, New Zealand and the west coast of South America, as provision is made in the contract for the retention of these markets. The options held by Britain are subject to review in the event of the new wheat season in Australia not yielding a sufficient surplus to supply adequate markets. Probably Britain will consent to take a portion of the wheat in the form of flour, thus giving employment to Australian workmen and Australian mills.

When Holloway's Corn Cure is applied to a corn or wart it kills the roots and the callosity comes out without injury to the flesh.

"How is your old, Donald?" "Oh, very obstinate." "And how's the wife?" "About the same."

Minard's Liniment Cures Burns, Etc.

Saskatoon to Winnipeg By Plane.—Winnipeg.—Making their airplane flight from Saskatoon in a little more than five hours actual flying time, Lieuts. H. Robb and A. H. Rose arrived in Winnipeg. Stops were made at Humboldt, Kamsack, and Dauphin for gasoline. Lieut. Robb has announced that a non-stop flight from Winnipeg to Saskatoon will next be attempted, probably within a week if weather conditions are favorable. An auxiliary gasoline tank with a capacity of 30 gallons will be used.

Are Hard Times Coming?

Yes, for the man that wears tight boots, but his corns are relieved quickly by Putnam's Corn Extract. No pain, and certain cure. That's Putnam's. Use no other, 25c, at all dealers.

Completing Pulp Mills

In Two Months Operation Will Probably Be Inaugurated

Victoria, B.C.—The large pulp mills which are being erected at Beaver Cove, up the coast, are fast nearing completion. In two months operation will probably be inaugurated with a product of fifty tons of paper a day. A large number of returned soldiers have been given employment at the plant. A railway for hauling the timber will be constructed and work has been started on the town-site. Manager White expects that the new industrial centre will have a population within three years and in time emulate such paper towns as Swanton Bay, Ocean Falls and Powell River. There is a steady market for paper on the Pacific, the United States, Australia, New Zealand and Japan being regular buyers.

Liberal

"Was the prima donna generous with her trills?" "Oh, yes, she gave us a great many rags for our money."—Baltimore American.

Webster's "Morale"

MORALE (Morale is: *That state of mind which, as a result of the moral conditions, or the conditions in other respects, so far as it is affected by, or dependent on, the moral conditions, such as great, right, hope and confidence; mental state, as of a body of men, an army, and like.*)

HAT is Dr. Webster's definition. Many of us know the word only in its war-time application.

Webster dwells freely upon the usage of the word "morale," as applied to the commonplace happenings of every-day life. His allusion to its reference to an army comes later. And Webster is correct—meticulously so.

It was their private-life morale that made such splendid soldiers of our boys when the time came for them to don the khaki. It was there, and that alone, that made them take the first step, and it was that which carried them through to victory. If their every-day morale had been neglected, the Army could have done little with them and success would not have crowned their efforts.

It is the many little incidents of your daily routine that make up your morale—the morning shave, your clean linen, polished shoes, brushed clothes. Webster speaks of zeal, spirit, hope and confidence. It is by attention to the small details of your personal appearance that these may be attained.

The Gillette Safety Razor enters as much into the morale of every-day life as it did into that of the trenches. It helped our soldiers to maintain their confidence and bearing. It will do the same for you. The Gillette Safety Razor makes the daily shave come easy—there is no pulling or scraping—no honing, or stopping—just five minutes of perfect shaving comfort. And, afterwards, a chin that tells of morale and self-respect.

Sold at most stores catering to men's needs.

Thanksgiving Day Oct. 13

Ottawa.—Mr. Pedlow asked in the House if it was correct that the Government had fixed October 13 as Thanksgiving Day, and if so, if this was to be interpreted as an announcement of Government opposition to his bill to make Armistice Day, the second day in November, a permanent thanksgiving day.

Hon. Mr. Doherty replied that Thanksgiving Day had been fixed for Monday, October 13, but it did not necessarily follow that Thanksgiving Day would be on the same date next year. Future policy would have to be decided later.

A Powerful Medicine.—The Healing properties in six essential oils are concentrated in every bottle of Dr. Thomas' Electric Oil, forming one of the most beneficial ingredients ever offered to the use of man. Thousands can testify as to its power in allaying pain, and many thousands more can certify that they owe their health to it. Its wonderful power is not expressed by its cheapness.

Down deep in the heart of every so-called woman hater there is a longing to have some woman fuss over him.

Minard's Liniment Relieves Neuralgia.

Sir George Perley Ready to Retire. Ottawa.—Sir George Perley, long commissioner for Canada, who has been home on a three months' leave, is returning to London early in October, but he has made it clear that it is not his intention to accept the position permanently. He will retire when a successor can be selected.

ONLY TABLETS MARKED "BAYER" ARE ASPIRIN

Not Aspirin at All without the "Bayer Cross"

The name "Bayer" is the thumb-print of genuine Aspirin. It positively identifies the only genuine Aspirin—the Aspirin prescribed by physicians for over nineteen years and now made in Canada. Always buy an unbroken package. There is only one Aspirin—Bayer. You must say "Bayer" Aspirin is the trade mark (registered in Canada) of Bayer Manufacture of Monocarbolic Acid (Bayer's Aspirin). While it is well known that Aspirin means Bayer manufacture, to assist the public against imitations, the Tablets of Bayer Company will be stamped with their general trade mark, the "Bayer Cross."

Stringent Measures

In Belgium, said War Correspond-
ent Will Irwin, "I knew an artillery
blacksmith who carried on the sleeve
of his uniform the hammer and pin-
cets—the insignia of his calling.""You're these things on your sleeve
mean?" a civilian asked him."They mean I'm an army dentist,"
he said, with a wink at me."Dentist, eh?" said the civilian.
The plinchers, then, are to pull teeth
out with. But the hammer—what's the
hammer for?""The hammer," said the blacksmith,
"is for use in bad cases to cholor-
form the patients."

Very Obvious

"Did you ever have a cold you
couldn't get rid of?"
"No—if I did I'd still have it now."

A Fall in Copper

A doctor who had been summoned
hastily alighted from his carriage to
find a woman awaiting him on the
doorstep, but without the anxious look
he expected in the circumstances."I understand," he said, "that your
Boy has swallowed a quarter. Where
is he?""Oh, sir!" was the reply, "I'm glad
to tell you we made a mistake. It
wasn't a quarter, it was only a cop-
per."

Final

A party of tourists in Ireland came
across a native whitewashing the front
of his house."Halloa, Pat," said one: "why aren't
you whitewashing the back as well as
the front?""Well," said Pat, "it's jist for the
same reason that you don't put a front
on the back of yer shirt."

The Lure of the Game

He: "Well, my dear, what did your
golf bug dentist say?"She: "Well, when he looked in my
mouth he said: 'Tooth off, stump
properly bunkered. It'll be a grand
niblick to get out of there in one.'"

A New Idea

This is a true story of what hap-
pened in a well-known town. A num-
ber of business clerks and officials
were going to attend the obsequies of
a departed colleague, and two of them
on the way to the funeral met in the
park. One was resplendent in a shir-
ing top hat, but the other wore the
ordinary bowler.Said he of the latter: "Hello, Jim,
where did you get the 'topper' I
didn't know you'd got one.""Shush!" was the reply. "Don't
say a word—it's poor Tom's. I bor-
rowed it off his widow!"

Took No Chances

"Well, Jones, I just saw the doctor
about my loss of memory."

"That so? What did he say?"

"Made me pay in advance!"

Hearing the Truth

A Perthshire parish minister was
visiting one of his parishioners, an old
woman, afflicted of late years with
deafness. "The fact is, when I gang
to the kirk I canna hear ye, sir," she
said. Desiring to be sympathetic, and
to say something consoling, he replied,
with unnecessary self-deprecation,
"Weel, Janet, perhaps you don't mis-
much." "That's just what 'a'budy tells
me," was the disconcerting reply.Economy: IN FARM
BUILDINGSTO GET THE LEAST WALL AREA—TO SAVE BUILDING
MATERIAL—TO SAVE IN COST OF CONSTRUCTION—
TO REDUCE HEAT LOSS THRU WALLS

Are all considerations of Economy

Sometimes too little money is invested in farm
buildings, in which case undue labor is required
in taking care of the stock. Work is often done
at a great disadvantage, to save a few dollars
when the buildings are being constructed.Plank Frame Barns—using nothing heavier than
2 inch plank—cost less to build and are becom-
ing very popular. The principal reasons for this
are, that his method saves in cost of lumber and
provides for more storage room in the hay loft.COME IN AND LOOK OVER OUR PLANS FOR THAT BARN
OR HOUSE YOU ARE THINKING OF BUILDING

smoked and cured meats always on hand

C. P. Larson,

Irma, Alberta

Government House,
Ottawa,
1st September 1919.

Dear Sir Herbert,

I am pleased to be the holder of a Canadian War
Savings Certificate. I am delighted to find that in
Canada you have War Savings Stamps on sale, similar to
those we have in England.
I wish the War Savings campaign every success.

I remain

Yours sincerely

S. Herbert

Sir Herbert B. Ames,
Chairman,
National War Savings Committee,
Ottawa.Facsimile of the letter sent to the Chairman of the National War
Savings Committee by His Royal Highness the Prince of Wales, at the
time he purchased in Ottawa a Canadian War Savings Cer-
tificate containing the full number of ten War Savings Stamps.

Bring Ocean Liners Nearer To West

Ottawa.—Western Canada is vitally interested in a scheme whose feasibility is shortly to be submitted for investigation before the International Joint Commission.

The governments of the United States and Canada are acting jointly in the submission to the commission of an enquiry into the deepening of the St. Lawrence river between Montreal and Lake Ontario to enable ocean-going vessels to proceed to the head of the lakes, and also to enquire into the joint development by the two countries of the three million potential horse-power.

If the plan, which is enthusiastically backed in the States, carries out, it will be possible for ocean-going vessels to go inward by the new Welland canal route 2,100 miles from the gulf. It will cheapen and facilitate the handling of the western crops by reducing freight rates compared with the cost of railway transport, and would also enable freight to be taken far inward to the west by water. The half million bushel carriers now stopping at Port Colborne could go to Montreal.

W. J. Stewart, Dominion hydrographer, has been delegated by the Canadian Government to act in conjunction with Colonel Keller, of the United States War Department, in determining the terms of reference to the commission.

Sir Oliver Lodge on Atomic Properties

Hopes We Will Not Know Their Power Yet

Birmingham, Eng.—Sir Oliver Lodge, the eminent scientist, in an address at Midland institute in connection with the memorial ceremonies held on the occasion of the one hundredth anniversary of the death of James Watt, inventor of the steam engine, again touched upon the subject of atomic properties of matter. Sir Oliver declared that the first utilization of the properties of matter was in wireless telephony. He added that if the atomic energy of an ounce of matter could be utilized it would be sufficient to raise the German ships sunk in the Scapa Flow. He said, however, that he hoped the human race would not discover how to use this energy until it had brains and muscles strong enough to use it properly, because if the discovery were made before its time, and by the wrong people, this planet would be unsafe.

Kingston Editor Goes to Saskatoon.—Kingston, Ont.—J. Courtland Elliott has retired from the Whig editorial staff to accept the position of assistant to Prof. W. Swanson, head of the department of political science in the University of Saskatchewan, at Saskatoon. Mr. Elliott is a graduate in arts of Queen's University and is a son of J. G. Elliott, ex-president of the Canadian Press Association.

Wonderful Wireless Tests.—New London, Conn.—A radio experiment made off New London, in Long Island Sound by the experimental station, naval section, established communication, both telephone and telegraph, between a hydroplane flying nearly 2,000 feet in the air and a submerged submarine several fathoms in the water.

Would Free Land From All Tyranny

London.—Premier Lloyd George speaking before the International Brotherhood Congress, as was expected, did not touch upon many of the important questions in which the nation is deeply concerned.

The Premier was given an enthusiastic reception, and began by saying that a political platform was not involved at the meeting. "If I made a political announcement," he added, "I should feel that I was outraging the hospitality of the brotherhood." He expressed the hope that all armaments would disappear and that the long drawn misunderstandings between Ireland and the rest of the kingdom would also pass.

"I am looking forward," he continued, "to seeing waste in all forms disappear and a new Britain springing up—a really free land, free from poverty, from the tyranny of mankind over mankind. Some people seem to think that I have accepted

German Troops For Baltic Front

All Warnings of Allies Are Disregarded in Mysterious Designs, Vorwarts Asserts

Berlin.—The assertion is made by the Vorwarts correspondent that the German militia in the Baltic provinces is rapidly growing and that officers and men are arriving there from Germany. Even the smallest places in Courland are strongly occupied.

Posters displayed in the office of Staff Captain Stewer, at Bausk, Courland, says the correspondent, read:

"Fight for the kaiser and the empire against democracy. We had rather die than be dishonored." "Retreat is being made of the dishonor of a few men," the correspondent adds, "but troops are being transferred to Admiral von der Goltz's army."

School Lands For Soldiers

Manitoba Lays Six Million Acres of Unimproved Lands Before Men

Winnipeg.—By an order-in-council passed, Acting Premier Hon. Edward Brown and the provincial cabinet placed six millions of acres of unimproved farm lands on the market for returned soldiers. This is the greatest move made by the government up to the present time for the re-establishment of returned men.

The order-in-council provides for the establishment of an arbitration board to determine the price the province shall receive for its land. Geo. A. Metcalfe, administrator of succession duties for the provincial government, will act as arbitrator for the province of Manitoba. The federal government will also name a member of the arbitration board.

The land which has been thrown open is all unimproved, much of it suitable for farming. The land is known at the present time as provincial school lands. The value placed on it in the public accounts of 1918 is \$13,000,000.

Fiume Isolated By Italy

Investigation Has Shown That Plan Originated in Venice

London.—Fiume has been isolated from the world by the Italian government, which is apparently taking steps to meet the situation that has arisen through the action of Captain d'Annunzio in forcibly taking possession of the city and in forcing allied and Jugo-Slav forces to leave. The veil of the censorship was drawn, and since that time little has been learned of events in the city.

Investigation of the incident has shown, according to advices, that the plan to seize Fiume originated in Venice, the prefect of which city is said to have been involved.

Copenhagen's Fortifications

Copenhagen, Denmark.—The Politiken learns that Mr. Petersen, the Minister of Defense, has submitted a proposal for the immediate demolition of the greater part of the fortifications of Copenhagen. This means that the whole of the land and a large part of the coast fortification would be razed.

Will Bring Down The High Prices

Judge Robson States That Price Probe Will Cover All Necessities

Winnipeg.—Judge H. A. Robson, chairman of the board of commerce, declares that drastic action cutting down the cost of necessities will be taken by the board of commerce just as soon as the evidence at the different probes has been taken.

No advance on necessities will be tolerated, he said, and the board aims to prohibit the sale of all fancy bacon. The retailer who takes a profit in excess of one cent per pound on any sale of sugar is liable to prosecution. This applies to Winnipeg dealers and is not limited to the East, Mr. Robson emphasized.

Regulations covering all packing plants and including such products as butter, eggs, cured meats and cold storage products in general will be drafted shortly. The order will be very definite, Mr. Robson said.

The board will deal with all necessities of life, including boots and clothing, Mr. Robson said. Prosecution will be made in every case where there is violation of the set profit by dealers. The board itself may impose the fines or instruct a criminal proceeding against the guilty parties.

Mr. Robson was not ready to give an outline of the provisions to be made for checking up of violations of the board's orders, but declared that every complaint brought to the board would be fully investigated and dealt with immediately and to the full extent of the law.

Cost of living probes are about to be instituted in Calgary, Edmonton and Regina, Mr. Robson said. He has just wired the appointment of men to take charge of these probes. Major Duncan Stewart will conduct the hearing in Calgary, S. W. Fiebel in Edmonton, and James S. Rarkin in Regina.

Irish Daily Newspaper Is Suppressed

Cork Examiner Accepted Announcement for Prospects of Irish Loan

Dublin.—The determination of the authorities to repress all manifestations of republican activities is shown by the suppression of the Cork Examiner, one of Ireland's chief daily newspapers.

Although it is a constitutionalist organ and opposed to the Sinn Fein, the Examiner printed a page prospectus of the republican loan, assuming, it is declared, that the prohibition of references thereto which existed under the censorship lapsed with the withdrawal of the censorship.

The military authorities, however, retain full powers, and raided the premises and removed part of the plant. The same advertisement was refused to the Dublin dailies, which offered the risk.

Ten Regiments To Defend Fiume

Italian Nationalists, Although Suppressed, Are Still Aiding in Movement

Rome.—D'Annunzio's force, according to the Idea Nazionale, consists of ten regiments, in addition to four battalions of Fiume volunteers. He has occupied a fortified line around Fiume as a strategic position. The citizens are supporting D'Annunzio, the newspaper adds, and are determined to destroy the town should resistance prove impossible.

The Nationalists are organizing demonstrations throughout Italy in favor of D'Annunzio. The government, however, is energetically repressing these.

Riga Peace Meeting

Copenhagen.—An important conference has been in session at Riga regarding not only peace with the Soviet government in Russia, but the formation of a Baltic federation, according to advices from Lettish sources. There has been no actual acceptance of the Soviet government's terms, but, on the whole, it appears that the Baltic federation has materialized to the extent that an agreement has been reached for a customs union of Latvia and Lithuania.

Death of W. C. Gurney

Toronto.—W. C. Gurney, president and general manager of the Gurney Foundry Company, Limited, died from heart failure while in the office of his physician. He was a son of the late Edward Gurney, founder of the Gurney Foundry Company, whom he succeeded in the presidency of the company, and was in his 40th year.

W. N. U. 1282

Would Popularize Reindeer Meat

Stefansson Says Canada Has Finest Climate in the World

Calgary.—"The finest climate in the world is the climate that is conducive to work, not idleness. I hear people praise the southern climates to the disparagement of our vigorous climate. We should never apologize for Canada's climate," said Vilhjalmur Stefansson, explorer, addressing an audience here.

Mr. Stefansson solicited support for his campaign to popularize reindeer raising, telling some amazing facts concerning this industry in the far north, and of the possibilities of the country, saying the northern zone had a great era of civilization before it. Reindeer was produced cheaper than any meat in the world, and brought a higher price today on the market than beef.

Robbery On Mail Train

Masked Men Robbed C.N.R. Express Passing Through Quebec

Quebec.—Five masked men bound and gagged the mail clerks on the Ocean Limited, Canadian National Railway, near Harlow, and robbed the mail car of \$75,000 in silver, which had been shipped from Montreal for Halifax.

The Ocean Limited does not stop after she leaves Levis until Harlow is reached. At Harlow the train had barely pulled out, according to the mail clerk foreman, when the back door of the mail door was crashed in and five masked men, pointing automatics into the faces of the mail crew, shouted the dramatic and business-like "Hands up." The bandits quickly bound and gagged the clerks, then made a dash to the bags containing the money. At St. Thomas the bandits escaped as the train slowed down. It is believed that they had an automobile hidden in the bushes. It is thought that they made for the United States border, and were expected to attempt to enter Maine.

Allies' Demand Agreed To

Austrians Cannot Participate in German Parliament or Government Affairs

Paris.—The written declaration concerning Article 61 of the German constitution demanded by the Allies is reported in a Berlin dispatch to have been signed by the German government. The declaration requested was that the article in question, relating to Austrian representation in the German parliament, was not to be considered as transcending the action of the peace treaty forbidding German participation in Austrian affairs.

Praise For the Navy

Washington.—In the course of his speech, in acknowledging the honor conferred by Congress, General Pershing referred to the "brilliant part" performed by the navy in transporting troops and supplies and in maintaining sea communications. "The army was conveyed overseas with the maximum of safety and comfort, and with incredibly small loss. In this arduous service the general assistance of the seamen of Great Britain deserves our lasting appreciation," he said.

Wheat Crop in Alberta

Edmonton, Alberta.—W. F. Stevens, representing the Alberta government in the Grande Prairie and Peace River districts, estimates the wheat crop there to be about 8,000,000 bushels. A party of 68 members of the Edmonton Board of Trade, is now touring the districts. A marked change is noted in the policy of the settlers; there being evidences of increasing mixed farming operations.

Rumanians Are Retiring

Budapest.—The Rumanian army has begun to withdraw from Budapest, a steady movement of trains is in progress. It is believed that the retirement will be completed within a fortnight.

Lone Bandit's Deed

Lewistown, Mont.—A lone bandit, unmasked, with a gun in either hand, held up the Buffalo Stock bank here, escaping with more than \$600. Several posses are now searching for the outlaw.

To Try Kaiser

London.—The Solicitor-General, Sir Gordon Hewart, has completed the case for the prosecution of the former German emperor, according to the Mirror. The place for the trial has not yet been settled.

An Irish philosopher says it's all right to make hay while the sun shines, provided it is cloudy.

Food Prices Drop In United States

Million Pounds Of Bacon In Storage

W. F. O'Connor Anxious to Know If Price Cannot Be Lowered

Toronto.—W. F. O'Connor, K.C., vice-chairman of the Board of Commerce, proposes that Canadian consumers of bacon shall have an opportunity to get in some of the bacon sides which have been exported to the old country and sold at comparatively low prices. He intimated, after E. C. Fox, general manager of the William Davies company, and J. A. Nelson, superintendent of the Davies retail stores in Toronto, had given evidence, that a million pounds of this commodity is at present locked up in the Davies plant, awaiting a day on which the English consumer has used up the supply of Wiltshire sides he has on hand, would be corralled for home consumption.

Mr. Fox's explanation that this was inferior bacon to that sold in Canada, and was sold at less cost in consequence, Mr. O'Connor wanted to know if it were not possible to sell the cheaper bacon in Canada. "We have come to the stage," he declared, "where the other bacon is too expensive."

Mr. Fox said the Canadians would not buy the cheaper bacon that was sent to England. "It is hardly worth while to test with this million pounds to see if you have difficulty in disposing of it," retorted Mr. O'Connor.

"Certainly, we would be glad to try it," he added. The commissioner told Mr. Fox that the Canadian consumer was not getting a square deal when his bacon cuts were regulated by European famine prices. "Personally," he said, "I think it would be a good thing in Canada for these in control to say to the producers of bacon, 'You have got to supply your Canadian trade at fair prices before we allow you to forfeit that stuff out of the country.'"

Mr. Fox repeatedly denied that the William Davies company was interested in any "packers' combine." "Then why is it," asked Lieut.-Col. Price, counsel for the board in the enquiry, "that the prices remain about the same for one week in the stockyards?"

"I suppose because we all know about what the other fellow is doing and we all have the same selling margin," was Mr. Fox's reply.

Mr. Fox promised to produce a chart giving detailed information as to costs, selling prices and profits. Superintendent Nelson, of the Davies company, said his efforts were directed toward keeping prices down and getting the volume of business. The higher the selling price of any commodity, the less his concern could make out of it, he said.

At the conclusion of Mr. Nelson's testimony, Commissioner O'Connor said:

"You have undertaken to say that you are not making any profit. We will find out what the profit is before we are done here."

Russian Front Combined

Paris.—Through the capture of Onga by the anti-Bolshevik forces, communication has been established between the allies on the Archangel and Murmansk coast fronts.

French Troops Are Sent To Armenia

To Allay Unrest

Less Likelihood of a Railway Strike Among Shoppers

Toronto.—There is little likelihood of labor trouble among the railroad shippers on the Canadian railroads, according to J. Clarke, schedule representative of Canadian railroads for the International Union of Boiler-makers, the headquarters of which are in Kansas City.

Mr. Clarke is in Toronto at present to allay unrest among railroad shippers, who are uneasy because of the delay in dealing with their grievances, which came before the Canadian Railway Board in May and were deferred until the demands of the United States railway workers were satisfactorily settled.

The man who spends six nights out of the week away from home blames his wife because she doesn't raise the boys right.

Washington.—Reports to the Department of Justice from thirteen states indicate that there has been a decline of 10 to 15 per cent. in food prices since the time the fair price committees began their work. From four states have come reports on wholesale prices indicating a decline of from two to five per cent. Virtually no reductions in clothing prices have been noted.

The reports on retail food prices were said to have been from cities and counties well distributed throughout the country and the information is believed by officials here to be a fair indication of what is going on everywhere. They think that the present now becoming evident will be cumulative as the season advances, new declines in wholesale prices being reflected in retail prices, and additional reductions coming from the campaign against hoarding and profiteering.

Stamping Out Profiteers

British Government Classes Profiteers With Rats and Other Vermin

London.—Charles McCurdy, parliamentary secretary to the Food Minister, declared that the government classes profiteers with rats and other vermin, and is determined to stamp them out. Mr. McCurdy was speaking at the opening day of the administration of the new Profiteering Act and alluded to the new Canadian statute dealing with a similar evil.

Criticism against the English act is mainly on the ground that it will never touch the big profiteer, but merely render the small trader liable to espionage and persecution. Meanwhile, street markets are increasingly instituted in the crowded streets. Their establishment is frequently followed by a drop in prices at the neighboring shops.

The lack of housing accommodation is certainly as vital a problem as profiteering.

Soldiers Are Homeless

London.—Houseless ex-soldiers at Newport, Monmouthshire, interrupted the borough council meeting, protesting from the gallery. There were, they claimed, 600 homeless families in the town. Liverpool corporation is spending £22,000 in converting army huts into private dwellings. Other local authorities are also attracted by this temporary solution.

Marshal Foch Lost Only Son

Paris.—Marshal Foch has recently asked the Belgian government to have a search made for the body of his son who was killed in August, 1914, in the Belgian Ardennes. Marshal Foch has religiously refrained from mentioning his lost son and few knew that the younger Foch was killed earlier in the war.

British Profiteers Secred

London.—The profiteering act, despite its defects, seems to have had a rapid frightening effect, for prices have already dropped in several districts.

Some local bodies refuse to appoint commissions to administer the act locally, but the refusal is generally followed by indignant protests from the inhabitants.

Dollars saved by Bovril

Bovril used in the Kitchen means dollars saved in the Bank.
It makes nourishing hot dishes out of cold food which would not otherwise be eaten. But see that you get the real thing. If it is not in the Bovril bottle it is not Bovril. And it must be Bovril.

LILY WHITE Corn Syrup For Preserving

Half Lily White and Half Sugar

You will have wonderful success with your preserves if you follow the example of the Technical Schools and replace half the sugar with LILY WHITE Corn Syrup. The initial saving in money may be small, but your jams and jellies will keep better, will have finer flavor, will be just the right consistency and will not crystallize.

LILY WHITE makes Dandy Candy

Endorsed by good housewives everywhere. LILY WHITE Corn Syrup is sold by all grocers in 2, 5, 10 and 20 lb. tins.

THE CANADA STARCH CO., LIMITED, MONTREAL 241

Write for Cook Book

Brazilian Property In Germany Is Safe

London, England.—A German wireless message states that it has only now become known in Germany that in Brazil the view is generally held that Brazilian property in Germany was confiscated during the war. In contradiction of this it can be stated that such property has been neither liquidated nor subjected to compulsory control.

TEETHING TROUBLES

Baby's teething time is a time of worry for most mothers. Baby's little gums become swollen and tender; his bowels get out of order and constipation, colic or even diarrhoea ensue. To make the teething period easy Baby's Own Tablets should be given the little one. They sweeten the stomach, regulate the bowels and keep baby good natured. Concerning them Mrs. Marcel D. LeBlanc, Memmcook, West, N.B., writes: "I have used Baby's Own Tablets for the past six years, and have found them indispensable. To my mind, nothing can equal them in allaying the fever accompanying teething. I would not be without them and can strongly recommend them to other mothers." The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Indemnity for New Zealand

Ottawa.—The statement attributed to Premier Massey that New Zealand expects to receive £10,000,000 indemnity from Germany is the subject of comment among members, and there is likelihood of questions in the house as to what Canada's share is likely to be. Canada's statement of claims has already been filed but, it is emphasized here, what will be received cannot be estimated until all claims have been filed and the ability of Germany to pay has been determined.

Earl of Athlone for Governor-General London.—The Earl of Athlone, brother of Queen Mary, will be appointed governor-general of Canada next summer, in succession to the Duke of Devonshire, the present incumbent, according to the National News.

Hundred Bushels To Acre

Eighteen Acres Yields 1,800 Bushels of Oats on Portage Farm Portage la Prairie, Man.—Eighteen acres of oats, yielded one hundred bushels per acre on the Fulton farm at Oakland. The land had received careful attention, but the total of 1,800 bushels was a surprise even to the producer. The oats were of the ordinary Banner variety. The land on this farm has been cropped for 40 years, and a return of this quantity indicates the marvellous soil quality of Portage Plains. The oats sold at Oakland on car at 82 cents per bushel.

New Altitude Record for America Dayton, Ohio.—What is believed to be a new two-man airplane altitude record for America was set at McCook aviation field by Major R. W. Schroeder, when he ascended to a height of 29,000 feet.

The world's record is held by Capt. Lang, of the British Royal Air Force, who climbed to a height of 30,500 feet with a passenger.

Long Standing Asthma.—Many have suffered so long from asthma and have tried so many so-called remedies they think that there is no real help for them. They should read the letters received by the manufacturers of Dr. J. D. Kellogg's Asthma Remedy from hundreds of cases once as desperate as their own. Even in long-neglected cases this famous preparation brings prompt help.

Manitoba May Build Road Winnipeg.—If the Dominion government will not build a 72-mile railway to the rich mines north of The Pas, the Manitoba government will consider the feasibility of constructing a provincial railway. Hon. Edward Brown, provincial treasurer, intimated. Mr. Brown stated that members of the provincial government recognized the necessity of such a railroad to enable the mines to operate, but that the building of such a line was up to the Dominion government.

U.S. To Retain Enemy Ships Washington.—Some of the seized German liners are to be retained permanently by the United States as part of the army transport service. Chief of Staff March told the House Military Committee.

President Wilson has definitely decided on the allocation of the ships, he said, but asked to be excused from discussing the plan of disposal, which would be announced soon.

During several months of each year some of the great rivers of Siberia are frozen solid to the bottom, but the fishes imprisoned in the ice maintain their vitality and resume their active life when the ice melts in the spring.

W. N. U. 1282

Korean Capital Occupied By Japanese Soldiers

Every Part of City Has Been Occupied By Japanese Troops

Tokio.—Since the attempt to assassinate Baron Saito, governor of Korea, at Seoul on September 2, every part of that city has been occupied by Japanese troops and the place is virtually in a state of siege. The would-be assassin is still at large, although a number of persons suspected of being implicated in the plot are under arrest.

The Japanese press takes the view that the bomb outrage was to have been expected, pointing out that it was almost a logical development. It expresses the opinion that the appointment of a naval officer as governor of Korea was probably impertinent and the result of poor judgment, as it only served to inflame the Koreans, who had hoped that a civilian would be named. Takekoshi Inukai, leader of the Kokumoto, or national party, takes a similar view. He said that a civilian might have calmed the Koreans, who regard Baron Saito as a man of the sword, like his predecessors.

Cheese By Parcel Post

Ottawa, Ont.—According to Mr. P. Roy, Commissioner-General of Canada in Paris, France, Canadian cheese has been shipped to France by parcel post. It appears that while in France Mr. John F. Ryan, of Montreal, presented to a number of merchants in Paris samples of cheese which he had received by parcel post. The samples were sent to him in round 10-pound cylinders which had been dipped in paraffin and wrapped in ordinary wrapping paper. The cheese was received 34 days after it was mailed, and it is said to have arrived in excellent condition.

Cholera in Korea Tokyo.—Special dispatches from Seoul, Korea, say that cholera is widespread, there being a hundred deaths daily in Seoul. The dispatch says an organization has been formed to combat the disease.

GIRLS! LEMON JUICE IS A SKIN WHITENER

How to Make a Creamy Beauty Lotion for a Few Cents

The juice of two fresh lemons strained into a bottle containing three ounces of orchard white makes a whole quart of the most remarkable lemon skin beautifier at about the cost one must pay for a small jar of the ordinary cold-cream. Care should be taken to strain the lemon juice through a fine cloth so no lemon pulp gets in. This sweetly fragrant lemon lotion and massage it daily into the face, neck, arms and hands.

Indian Veteran Sentenced London.—Wm. Jordan, a full-blooded Indian, who has served in the Canadian army, was sentenced here to 10 years' penal servitude for manslaughter of a ragman in Sussex, whom he brutally beat to death when in a frenzy under liquor.

LISTEN TO THIS! SAYS CORNS LIFT RIGHT OUT NOW

You reckless men and women who are pestered with corns and who have at least once a week invited an awful death from lockjaw or blood poison are now told by a Cincinnati authority to use a drug called HALL'S CATARRH MEDICINE, which the moment a few drops are applied to any corn, the soreness is relieved and soon the entire corn, root and all, lifts out with the fingers.

It is a sticky ether compound which dries the moment it is applied and simply shrivels the corn without inflammation or even irritating the surrounding tissue or skin. It is claimed that a quarter of an ounce of freezezone will cost very little at any of the drug stores, but is sufficient to rid one's feet of every hard or soft corn or callus.

You are further warned that cutting at a corn is a suicidal habit.

It Depended First Girl (at Rever): Can you swim? Second Girl: When there's no young man around to teach me.

Do not suffer another day with itching, bleeding, burning, stinging PILES. No need of a doctor's visit. No operation required. Dr. Chase's Ointment will relieve you at once and as a certainty cure you. See a post at London, Ontario, and get a box free. Sample box free if you mention this paper and enclose 1c stamp to pay postage.

KNOCKS OUT PAIN THE FIRST ROUND

Comforting relief from pain makes Sloan's the World's Liniment

This famous reliever of rheumatic aches, soreness, stiffness, painful sprains, neuralgic pains, and most other external twinges that humanity suffers from, enjoys its great sales because it practically never fails to bring speedy, comforting relief. Always ready for use, it takes little to penetrate without rubbing and produce results. Clean, refreshing. At all drug stores. 35c, 70c, \$1.40.

Sloan's Liniment Keep it handy

Plaque For Veterans

Ottawa.—The scroll which, with a memorial plaque is to be awarded to the British government to the next of kin of those who have fallen in the war, will shortly be distributed in Canada by the Department of Militia and Defence. It has been found impossible to issue the plaque at the same time as the scroll, owing to the necessity of building a special factory for its manufacture.

This is to certify that I have used MINARD'S LINIMENT in my family for years, and consider it the best liniment on the market. I have found it excellent for horse flesh.

(Signed) W. S. PINEO. "Woodlands," Middleton, N.S.

An apple a day keeps the doctor away, but, by Jinks, you have to have rattling good aim!

It is more difficult for some men to collect their wits than their bills.

Minard's Liniment Cures Dandruff.

Australia's Trade With Japan Sydney, New South Wales.—Japan's exports to Australia have overtaken the imports, and there was a balance of trade in favor of Japan for 1918 to the extent of £1,826,040. This fact was brought under the notice of the New South Wales Government by Mr. J. B. Sutor, their commercial commissioner in the east. Mr. Sutor blamed the restrictions placed on such exportations to Japan as wool for this unfavorable position, and declared that when all restrictions were removed it was highly probable that there would ensue a handsome balance of trade in Australia's favor.

A small boy said it was impossible to judge the effect of a slipper by its size.

It Is Wise to Prevent Disorder.—Many cases lead to disorder of the stomach, and few are free from them. At the first manifestation that the stomach and liver are not performing their functions, a course of Parment's Vegetable Pills should be tried, and it will be found that the digestive organs will speedily resume healthy action. Laxatives and sedatives are so blended in these pills that no other preparation could be so effective as they.

Germans Prepare to Invade Poland Paris.—A dispatch received here from Soudowice, in the government of Plozkow, Poland, asserts that a German army comprising a minimum of 200,000 men is concentrated on the frontier of Silesia ready to be thrown against Poland.

The Source of the Discontent Much of the discontent of wage-workers has come from the apprehension they felt last prices should out-strip-pay. If they can be convinced that prices have halted they will feel positive relief in many cases in spite of having their pay remain what it is.—New York Sun.

"Cold in the Head"

is an acute attack of Nasal Catarrh. Persons who are subject to frequent "cold in the head" will find that the use of HALL'S CATARRH MEDICINE will build up the system, cleanse the blood and render them less liable to colds. Repeated attacks of Acute Catarrh may lead to Chronic Catarrh. HALL'S CATARRH MEDICINE is taken internally and acts through the blood on the mucous surfaces of the system. All Druggists 75c. Testimonials free. \$1.00 for any case of catarrh that HALL'S CATARRH MEDICINE will not cure. F. J. Chesney & Co., Toledo, Ohio.

There are still 1,250,000 British troops under arms throughout the world. That is just about five times the size of the "contemptible little army" at the beginning of the war that the ex-kaiser saw grow to such huge proportions.—Hamilton Spectator.

WORKING AFTER SIXTY?

You surely must if you don't save when you are young. An Excelsior Endowment is the best way. Write for pamphlet to-day.

THE EXCELSIOR LIFE INSURANCE CO.
WINNIPEG SASKATOON EDMONTON VANCOUVER

Farm Colony For Tubercular Veterans

To Be Established Shortly By the Soldiers' Land Settlement Board

Calgary, Alta.—A new colony for returned soldiers who are tubercular, and who are inclined to try farming, is to be established shortly by the Soldiers' Land Settlement Board in the forest reserve of the southern Alberta foothills.

The selection of some 20 sections of suitable land in the reserve for this purpose will be made within the next week or two. The inspection of a large area from which these 20 sections will be selected is now being made by officials of the Soldiers' Settlement Board of Calgary.

The land upon which these patients will be settled will be selected west of Claresholm, and is cooler for the purpose, which is to place these soldiers who have suffered from the effects of gas or are of tubercular tendencies upon land where the duties and requirements will not be heavy, but where the climate is suitable for their constitutional recuperation.

The farms will not be confined to one particular area, but will be distributed over a large area. The requirements to be fulfilled by those who will be placed on these farms will be light.

Many a good man blacks shoes and many a bad one blacks character.

THE OLDEST, THE SIMPLEST, THE SAFEST AND THE BEST REMEDY FOR

Diarrhoea, Dysentery, Colic, Cramps and Pains in the Stomach, Summer Complaint, Cholera Morbus, Cholera Infantum, Sea-Sickness, and All Unnatural Movements of the Bowels, is

DR. FOWLER'S Extract Of WILD STRAWBERRY

This preparation has been on the market for the past 74 years, and its reputation has become such that there have been many so-called strawberry compounds manufactured, and these have been in many cases represented as "Dr. Fowler's." Don't experiment with those no-name reputation substitutes, they may be dangerous to your health. Get a remedy that has stood the test of time, one with a reputation extending from one end of Canada to the other.

Price 35 cents. Manufactured only by The T. Milburn Co., Limited, Toronto, Ont.

No Deviation From Evacuation Policy

When Poles Become Closed British Troops Will Have Left

London, England.—When interviewed at the War Office regarding certain allegations made by Col. Sherwood Kelly to a British newspaper in respect of the North Russian operations, a high official denied that there was or had ever been the slightest intention of deviating from the settled policy of British evacuation from North Russia, and gave the assurance that when the ports became closed it would be found that the British troops would have left. The generals on the spot have their orders, which apply to North Russia generally, and there is no intention of holding on to Murmansk.

Gift of Old Watches

Melbourne, Victoria.—Auckland (New Zealand) Museum has received a valuable collection of ancient hand-made watches, some dating back to 1750, and including two beautifully enamelled specimens. While the watches come direct from the Victoria and Albert Museum, Kensington, England, the real donor was Evan Roberts, of Sheffield, who presented 1,500 antique watches to the museum in Kensington, with the proviso that all watches not required by that institution must be divided among the Auckland and other specified museums.

Carrazza Will Retire

Mexico City.—"Venustiano Carrazza under no circumstances will seek re-election as President of Mexico, and without fail will turn the Presidency over to his successor upon completing his present term in December, 1920," Luis Cabrera, Secretary of the Treasury, has announced.

MONEY ORDERS

It is always safe to send a Dominion Express Money Order. Five dollars costs three cents.

British Officers' Pay Is Increased

London.—A royal warrant has been issued substantially increasing army pay. Second lieutenants are to receive £394 and £448 sterling annually if married and £320 to £375 if unmarried; lieutenants, £448 to £503 if married, and £375 to £429 if unmarried. Captains and majors receive equivalent increases. A colonel is to receive £1,242 if married, and £1,184 if unmarried. The increases given to men are unchanged from those already announced.

A spruce young man isn't ever-green.

A pug dog acts as if he might be vain of his ugliness.

Certain morbid conditions must exist in the stomach and intestines to encourage worms, and they exist as long as these morbid conditions permit them to. To be rid of them and spare the child suffering, use Miller's Worm Powders. They will correct the digestive irregularities by destroying the worms, conditions favorable to worms will disappear, and the child will have no more suffering from that cause.

It is easier to avoid debt than it is to dodge a creditor.

Minard's Liniment for sale everywhere.

"I can't think, John, where that child got his temper from!" exclaimed the child's mother, when he had been removed screaming from the room. "No one can say it's from me."

"No one," agreed the inebriated behind the evening paper. "For you have certainly still got yours."

"Girls, if you don't want a husband who will growl at your cooking, select a man who can afford to have a cook."

KINSELLA

A water tank is now being erect-
ed at Kinsella by the G.T.P. They
are going to close their tank at
Phillips owing to the water there
not being of very good quality. The
water here is to be taken from the
large well at the gravel pit, three
pipes under the ground and pumped
up to the new tank, a distance of
about one mile.

Miss Alice Overbo was visiting
with Mr. and Mrs. J.J. Overbo last
week.

H. A. Frank, station agent, is
away on a month's vacation to
Chicago. Some gentlemen from
Sedgewick is taking his place.

Mr. O'Donnell has now opened
up a butcher shop at Kinsella and
has all kinds of meat on hand at
the right prices. Call and see him
when you are in town.

Hans Christenson of Irma was
visiting his brother Ole on Sunday.

Overbo Bros. have finished the
foundation for their hall and intend
to start setting up the frame the
first part of the week. They have
put two stringers of concrete thru
the centre lengthwise so as to have
a solid floor.

Threshing has commenced and it
is understood the grade will be bet-
ter than was expected.

The G.T.P. steam shovel is still
going at full swing and are now
taking down a hill along side of the
depot so as to make a better road
thru to the stockyard. The dirt
is being hauled to fill in the Battle
river bridge.

A concert is to be given at Kin-
sella, Friday, Sept. 26th. The fol-
lowing local artists will appear:
Mrs. Upton, Mezzo; Mrs. Pinder,
Soprano; Mrs. Cox, Violinist; Mrs.
Ainslee, Tenor; Mr. Kerns, Bass
Proceeds to go towards piano fund
for the church.

Minburn

A meeting of the shareholders of
Minburn co-operative stores was
held last Saturday when the fol-
lowing directors were chosen, F. Lar-
combe, D. Nelson, John Bowen,
J. French, J. A. Leeland, B. Hol-
combe and Roy Parke.

Miss Archibald, organizer for the
UFWA gave a very interesting ad-
dress on the aims and work of the
UFWA in the hall Saturday eve.

P. Morrison has returned home
from a holiday and has opened up
the UGW elevator.

Mr. Stewart, of Raddison, Sask.,
has come to town and is in charge
of the Minburn grain company's
elevator and has opened up for the
season's business.

Innisfree and Manville fairs were
held this week and quite a few took
in the sights.

Mrs. Hilliker and her two boys
from Viking and her sister Mrs.
Riley of Welland, Ont. were visit-
ing friends in town. The Hillikers
were among the first settlers in
Minburn and also had the postoffice
and store for a time.

Mrs. C. L. Milks has returned
home from the hospital at Lamont.

VIKING

Dr. Carmichael and party were
over from Stromie last Friday to see
the horse races and sports at the
fair.

Mr. Masson and Mr. Hutton of
the Irma bank staff were among the
Irmaites who took in the fair here.
J. P. Bush, of Bruce, of the Royal
Bank, was an interested spectator
at the races.

The ball team won out over
Holden at the Holden Fair last
Thursday by the score of 5 to 2 in
a game that was played between
showers and in a terrific wind. Bruce
basketball teams defeated Holden
10 to 11 in a close and exciting
game.

We understand Dr. S. Purvis is
leaving town the first of next month
to take a postgraduate course in
medicine. Dr. Hoson, who is in
Saskatchewan, is not returning, and
Dr. Hart, of Ontario, has practical-
ly decided to locate here.

Steve Swift and Wm. Hanson,
junior member of H. E. Hanson &
Son, returned last week with a car
of Shorthorn cattle from the C.N.R.
fair circuit. At Vermilion, proba-
bly the best fair in Alberta outside
of the big cities, they won junior,
senior and grand champion for this
stock which they have raised on
their farms north of town.

Chas. Thorsen arrived from over-
seas last Thursday accompanied by
his wife and family. Chas. went
overseas with the popular 202nd
battalion in 1915, and was kept in
England on clerical duty. They
at present at the farm home of his
parents, Mr. and Mrs. Fred Thorsen,
southeast of town. Since re-
turning he has been busy receiving
the congratulations and good wishes
of a host of friends who are glad to
see him back in Canada again.

Dr. Hugh Hart, of Shakespeare,
Ont., was in town last Saturday
looking over the district with a
view of locating here. Dr. Hart
went overseas in 1915 and has re-
cently returned from the front
where he served continuously in the
medical corps where he held a com-
mission as major. Before going
overseas he was practising in
Youngstown, Alberta.

The Viking Rink Co. was formed
at a representative meeting of citi-
zens held Tuesday last in Cooke's
hall. W. Fitzmaurice was elected
president, A. Ross, vice-president,
R. Sparling, secretary-treasurer and
L. Kelly, F. W. Venner and J. L.
Slavik members of the executive.
This organization is the culmination
of a series of meetings held
during the summer for the purpose
of forming a company to build a
suitable curling and skating rink
which will be a credit to the town,
the plans of which have been pub-
lished in this paper on more than
one occasion.

Joseph Fortier arrived in town
from overseas Tuesday after over
five years' absence. He left with
the first volunteers of the Alberta
Dragoons from this district in 1915
and saw much active service. Be-
fore going overseas he conducted a
harness business in town. While
in the old country he was married
but his wife will not join him here
until later. Joe's host of friends
have been giving him the glad
hand since his return and every-
body joins in welcoming him home.

Comrade Hume, provincial or-
ganizer for the G. W. V. A. assisted
the local veterans in forming an
organization here last Saturday at a
meeting held in McLeod's hall.

Comrade M. M. McLeod was
elected President by acclamation,
P. A. Main, vice president, and on
a vote, J. H. Aitth, second vice-
president. For members of execu-
tive, Comrades P. C. MacPherson,
G. P. Lee and H. S. Ashwell.

Comrade R. F. Kelcey was elect-
ed permanent secretary-treasurer
by acclamation. The organization
will be known as the Viking Branch
of the Great War Veterans Association
and the annual dues will be
\$5.00 and the initiation fee \$2.00.
